DETAILED ACTION

Allowable Subject Matter

Claims 1-32 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-29, the prior art does not teach or suggest a refractive projection objective having an image side numerical aperture greater than 0.7 and a variable light bundle diameter smaller than or equal to a maximum light bundle diameter and exceeds 85% of the maximum light bundle diameter. Regarding claims 30-32, the prior art does not teach or suggest a third lens group having an elongated configuration taking up 60% of a length measured from the object field to the image field and where the system diaphragm is arranged in the third lens group.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
